

HireDesk Staffing Product List

	HireDesk Staffing Edition
Talent Portal Project a professional image to the market with a website that attracts and interacts with candidates.	✓
Talent Profile Create a candidate record that tracks detailed information about each and every candidate.	✓
Talent Pool Expand and manage your candidate pool cost-effectively and efficiently.	✓
Talent Search Search your candidate pool to quickly find the ideal candidates.	✓
Client Management Build long-term, profitable relationships with clients.	✓
Job/Requisition Management Stay on top of every detail for each job assignment, client and candidate.	✓
Screening and Selection Manage the screening and selection phase of the hiring process.	✓
System Administration Manager Save money by managing your recruiting solution in-house.	✓
Report and Measurement Management Effectively measure the performance of your business.	✓
Optional Features	
Ad-Hoc Reporting Report on the metrics your business needs anytime, in any format, with ease.	✓
Approval Routing Ensure that everyone involved with a requisition or hire approve the choice and keep a centralized record of that decision.	✓
Talent Qualification Interview Talent Qualification Interview (TQI) eliminates time-consuming on-site or phone interviews, by pre-screening candidates quickly, economically and in a job-specific manner online. Candidates answer "red flag", job-fit, and free-form text questions. Responses are automatically scored and reported.	✓
Multiple Workflows/Multiple Talent Portals Ensure your software solution can reflect your multiple brands and processes regardless of how often they may change.	✓
Quality of Hire Ensure you hire only the best candidates by having interview guides and rating tools that ensure you find the right competencies you need in candidates.	✓
